Omschrijving	AD-ZLBM123-210-185 Adapter 185mm to 210mm
Omschrijving	<p>The Cu+ adapter enables retrofitting where SLBM and BSL is to be replaced. It enables adjacent install ability between Inline II and SLBM + BSL. Through its dedicated design the cable connection areas of both variants are at the same level, also the depth is optimized bringing the handles to nearly identical level, meaning no further modifications at site are required.</p> <p>The Cu+ adapter can be combined with each switch out of the Inline II portfolio. Double switches require two adapters.</p>
