ScoutLED[®]

Rechargeable anti black-out LED lamp

Portable LED lamp suitable for intense "outdoor" use with battery duration up to 85 hours and anti black-out function.

Beghelli

ScoutLED®

Rechargeable anti black-out LED lamp

Automatic flashing activation push button

Secondary LED "parking light"

Secondary LED battery duration up to 85 hours

Mains and re-charge red LED indicator

"Built in" re-charge cable compartment

Supplied with shoulder strap

ScoutLED is a new rechargeable and portable anti black-out Beghelli lamp suitable for an intense outdoor use. Thanks to its high power LED, Scout LED grants an exceptional light output and a very long battery duration. When connected to the power mains, it will automatically switch on in case of black out.

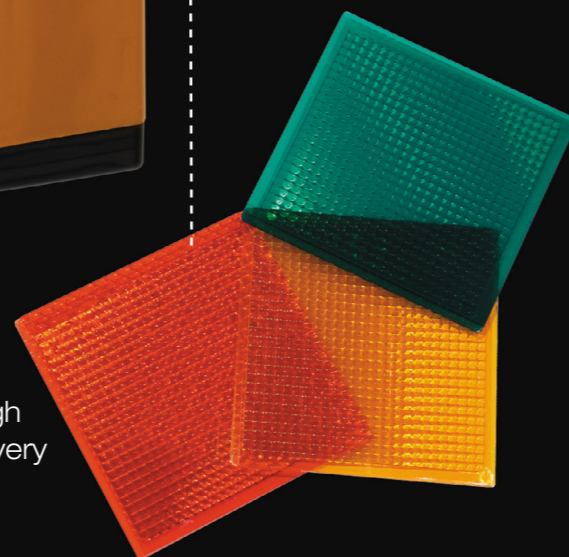

Two way "min/max" switch button

High power main LED: 2,4W with lenticular lens and mirror-like parabolic reflector

Main LED battery duration up to 9,5 hours

High capacity built-in internal rechargeable battery

Supplied with three colored diffusing screens housed in the internal compartment

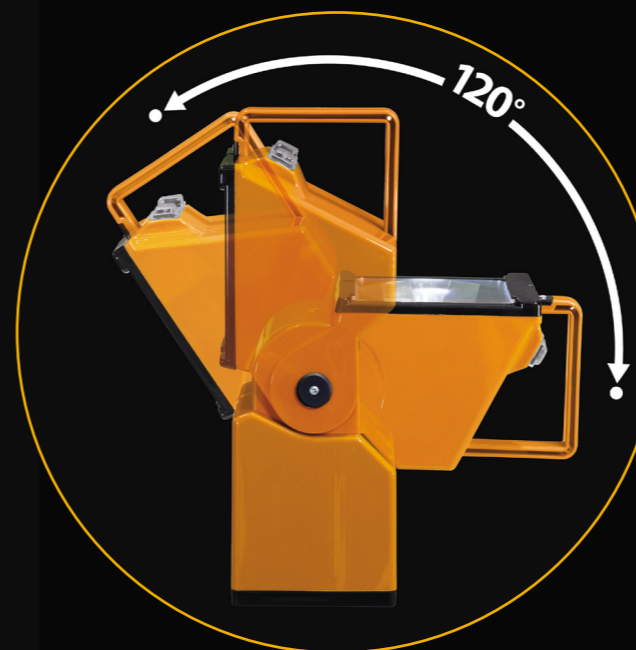

When connected to a power socket with the switch button set either on min or max position, Scout LED will switch on automatically in case of black-out and then off again when power comes back. A red colour LED positioned on the reflector marks the proper connection of the unit to the mains.

ANTI BLACK-OUT function

The tilting head can rotate by 120° and set in any intermediate position.

The ScoutLED lower body can be opened at the bottom accessing a compartment where the power cable and the coloured diffusing screens can be stored. The flashing function can be activated on the main or on the secondary LED thanks to a switch button placed on top of the fixture.

ScoutLED

Part Number	8380
EAN code	8002219508058
Package	6 pcs
Duration	9.5 hrs / 85 hrs
Built in rechargeable battery	Pb 6V / 4.5Ah

Technical data:

- Main LED battery duration: (after 36 hours of charge) 9,5 hours; (after 24hours of charge) 8,5 hours
- Secondary LED battery duration: (after 36 hours of charge) 85 hours; (after 24hours of charge) 80 hours
- Main LED: 2,4W / 230lm
- Secondary LED: 0,2W / 23,5lm
- Rechargeable battery: Pb 6V 4,5Ah
- Power supply: 220-240V / 50-60Hz
- Current: 230Vac÷227mA (3W)
