Design

The universal hexagon key consists of a handfolder made of chrome-vanadium steel and is designed for hexagon socket screws of the sizes 3, 4, 5, 6, 8 and 10 mm.

The universal cubicle key US, made of zinc die cast, is a key for four different

head shapes (6 mm square, 7–8 mm square, 7–8 mm triangle and 3–5 mm two-way).

The handy universal triangular key sets are available in many different variations.
