

## Product Data Sheet GWJ2101W

**JOINON** range

The wall-mounted I-ON charging stations are the JOINON solutions for public and semi-public access, designed for charging electric vehicles and to withstand any wear including impacts, stress, vandalism and atmospheric agents. They are the first and only on the market guaranteed with a IP55 protection rating. The special design allows the units to be adapted into any urban context and parking configuration, with a targeted focus on the user experience of drivers. They are available with standard JoinOn graphics, which may be customised on request.

| INPUT                                | -                     | Socket/Connector Nr. (Type) | 2 (Type 2 vandal-proof socket, with shutters) |
|--------------------------------------|-----------------------|-----------------------------|---|
| Terminal blocks                      | 2 x (3 x 10 mm²)      | Charging activation         | Remotely managed, via OCPP 1.6J               |
| Rated current                        | 64 A                  | Human Interface             | LED RGB and TFT Display                       |
| Total power                          | 15 Kilowatt           | Connectivity                | LAN,WIFI,4G                                   |
| OUTPUT                               | -                     | MECHANICAL FACTS            | -   |
| Rated voltage                        | 230 V                 | Mounting and installation   | Wall mount                                    |
| Current supplied (max)               | 32 A per socket       | Colour                      | Grey, Headboard RAL 7011                      |
| Power max.                           | 7,4 kW per socket     | Material                    | Steel sheet                                   |
| Thermal-magnetic protection          | Currently not present | External treatments         | Anti-corrosion and anti-graffiti              |
| Type of residual current protection  | Currently not present | IP degree                   | IP55  |
| Power meter                          | Yes (Type MID)        | Mechanical resistance       | IK10  |
| DC Leakage check                     | Currently not present | Operating temperature       | -25 +50 °C                                    |
| (Auto)restart electrical protections | Currently not present | Customizations              | Yes (front)                                   |
